

FDA Self-Wound Overlamine Explanation

The acpo ltd. face stock complies with **Title 21, Section CFR 177.1520**, Olefin Polymers, (**CFR 177.1520**) and **21 CFR 178.3130**. Antistatic and/or Antifogging Agents in Food-Packaging Material, subject to the provisions of these regulations. Compliance to these regulations would permit the direct contact of the acpo ltd. film surface with food.

The adhesive used on this acpo ltd. product compositionally complies with **Title 21, Section CFR 175.105**, Adhesives, when used as prescribed in this regulation. The prescribed conditions are that the adhesive must be either (1) separated from the food by a functional barrier, which will prevent the migration of any of the adhesive components to the food, or (2) used in accordance within the limits of good manufacturing practices, which prevents the adhesive from contacting the food in more than insignificant, de minimis amounts. Compliance to these regulations would permit the indirect and incidental contact of acpo ltd. adhesive with food.

The acpo ltd. face stock complies with **Title 21, Section CFR 177.1630** polyethylene phthalate polymers. This regulation describes films, which may be safely used in contact with foods, excluding alcoholic beverages. Compliance to these regulations would permit the direct contact of the acpo ltd. film surface with food.
